- Bowline knot: A strong and secure knot that is used to create a loop in the end of a rope.

- Figure-eight knot: A simple and versatile knot that can be used to join two ropes together or to create a loop.
- Sheet bend knot: A strong and secure knot that is used to attach a rope to a larger rope or object.
- Clove hitch knot: A simple and secure knot that is used to attach a rope to a post or other object.
- Square knot: A basic knot that is used to join two ropes together.

## **Lashings**

Lashings are used to secure two or more objects together. They are often used to build shelters, lash gear to a backpack, or create other structures. Some of the most common lashings include:

- Square lashing: A simple and secure lashing that is used to join two poles together at right angles.
- Diagonal lashing: A strong and secure lashing that is used to join two poles together at an angle.
- Tripod lashing: A lashing that is used to create a stable tripod structure.
- Shear lashing: A lashing that is used to secure a pole to a wall or other vertical surface.
- Ridgepole lashing: A lashing that is used to secure a ridgepole to a tent or other structure.

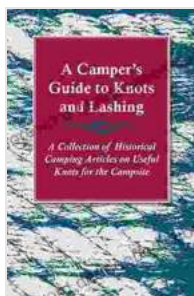

## **Historical Camping Articles**
