However, choosing the right fish can be overwhelming with so many different species available. To help you make an informed decision, we've compiled a list of the best pet fish for beginners, along with their care, health, food, and behavior.

1. Betta fish

Betta fish, also known as Siamese fighting fish, are known for their vibrant colors and flowing fins. They are relatively easy to care for, making them a good choice for beginners. However, they can be aggressive towards other fish, so it's best to keep them in a single-species tank.

Care:

- Tank size: 5 gallons or more
- Water temperature: 75-80°F (24-27°C)
- pH: 6.5-7.5
- Filtration: Yes
- Substrate: Gravel or sand
- Decorations: Plants and hiding places

Health:

- Lifespan: 2-5 years
- Common diseases: Fin rot, tail rot, dropsy
- Signs of illness: Loss of appetite, lethargy, clamped fins

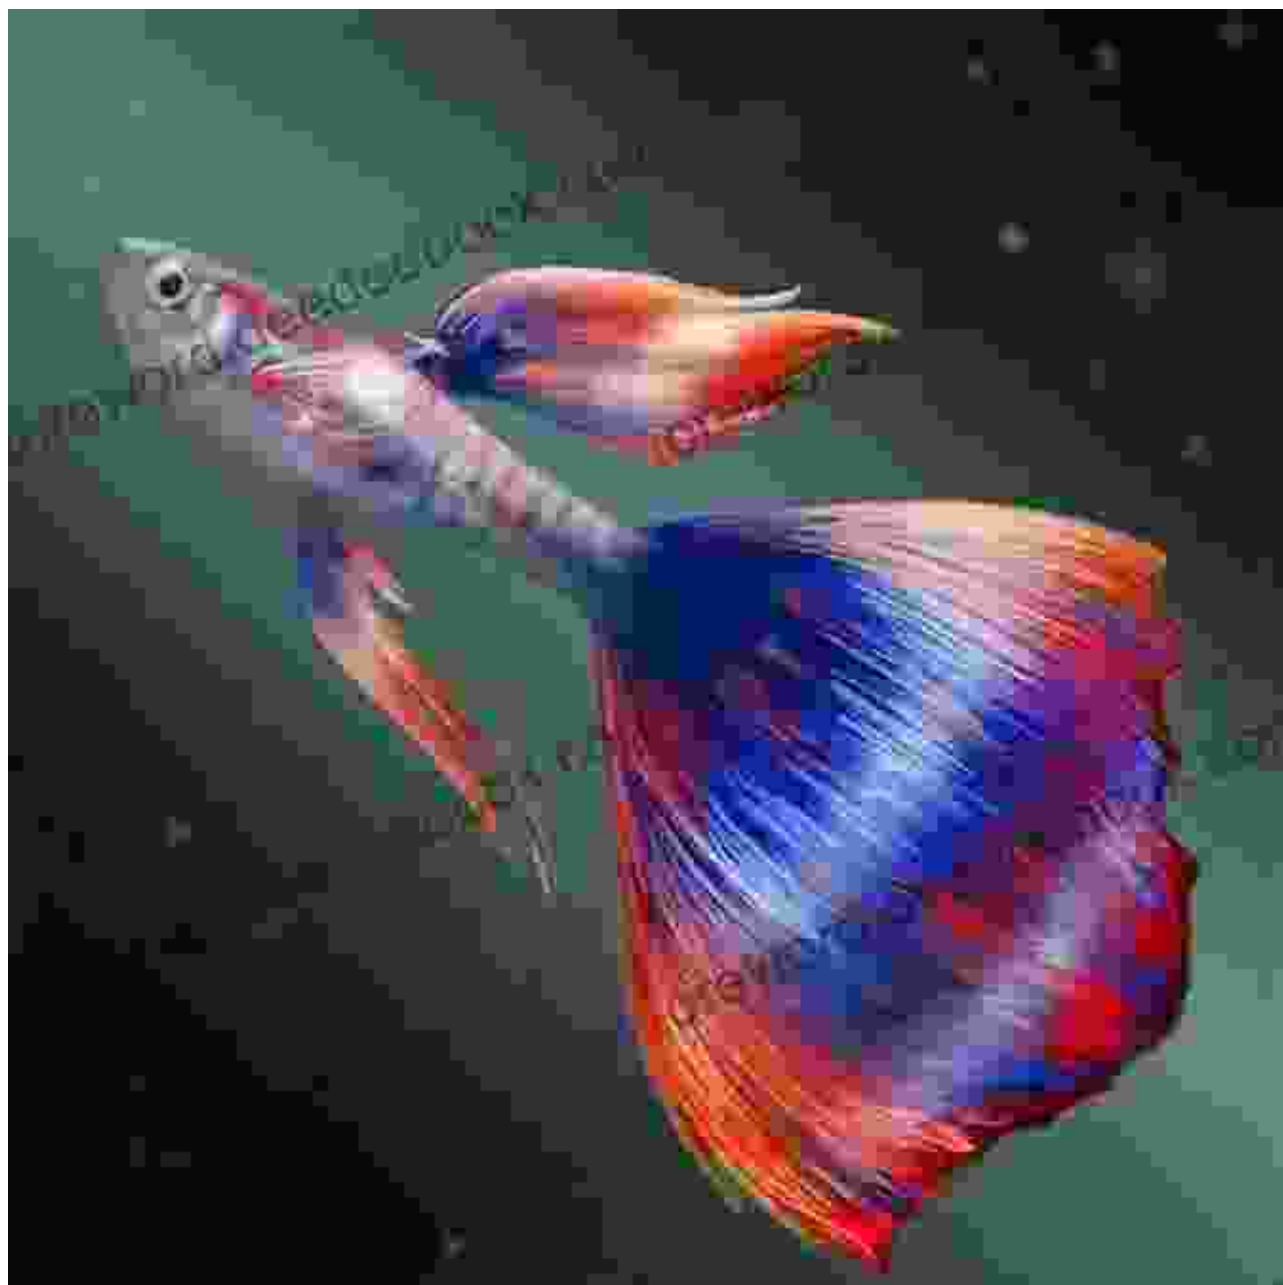

Food:

- Diet: Live food (brine shrimp, bloodworms), frozen food, pellets
- Feeding frequency: 1-2 times per day

Behavior:

- Temperament: Aggressive towards other fish
- Activity level: Moderate
- Social behavior: Solitary

2. Guppy

Guppies are one of the most popular aquarium fish due to their vibrant colors and lively personalities. They are also very easy to care for, making them ideal for beginners.

Care:

- Tank size: 10 gallons or more

- Water temperature: 72-78°F (22-26°C)
- pH: 6.5-7.5
- Filtration: Yes
- Substrate: Gravel or sand
- Decorations: Plants and hiding places

Health:

- Lifespan: 2-3 years
- Common diseases: Ich, fin rot, tail rot
